REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore (Revenue)—dated 1st January 1895.

READ:—

The following report of the Muzrai Superintendent on the working of the Muzrai Department during the year 1893-94:—

I—CHATTRAMS.

The practice of indiscriminate feeding in Chattrams having, as pointed out in my previous report, given rise to great abuse, it has been discontinued, and the system of issuing raw rations to only such travellers as are poor has been substituted in all the Chattrams in the Chitaldroog District. By this change, the overgrown establishments in connection with the feeding arrangements have been reduced, and greater funds have become available to meet the wants of travellers. Otherwise too, the change has been a marked improvement. The Chattrams which under the old system had to be closed for portions of the month for want of funds, are now kept going through the month, the Chattram buildings are promptly repaired suitable accommodation is provided, and sets of cooking vessels are purchased and kept in readiness for the use of the traveller. The Chattram establishment now consists of only two servants—a Brahmin and Sudra—the former being required not only to distribute raw rations to travellers but also to prepare and supply cooked food to such of them as are weak and sickly, and the latter to light the Chattram and sweep and keep the building clean at all times. In short, the comforts of the poor *Bonafide* travellers are now best studied and their legitimate wants well attended to; and the Chattram is now no longer an asylum for idlers. The Deputy Commissioner of Chitaldroog District in his Muzrai Report for the official year 1893-94 observes as follows:—

“The manifold advantages claimed for the new system are too well known to require recapitulation here. The system is working well and giving satisfaction.”

2. With the exception of a few Chattrams where charitable feeding may be required in certain seasons in connection with religious pilgrimages, the new system will be extended to all the other Chattrams in the Province as rapidly as the circumstances of each case might permit.

II—MATTS.

3. *The Harjarpur Matt in the Kadur District.*—The Priest in this Matt having become involved in debts and unable to manage the Matt's properties, the estate has been taken charge of by the Muzrai Department, and placed under the management of the Taluk Amildar. The unauthorized alienations of the Inam lands made by the Priest have been cancelled as opposed to the Government of India Notification dated the 17th November 1877, which has the force of law in this Province, and the lands have been restored to the Matt.

4. *The Sivaganga Matt in the Bangalore District.*—The Priest of the Sivaganga Matt having likewise become involved in debts and unable to manage the endowments, solicited the aid of Government to put the affairs of the institution into order. This was readily accorded. The Inam villages belonging to the Matt have been taken over under Muzrai management, and they are now administered by the Taluk Amildars under the direct orders of the Muzrai Superintendent.

5. *The Vyasaraynswami Matt in Sosale, Mysore District.*—Several complaints having been received from the disciples of the Matt that the affairs of the institution were being grossly mismanaged and its properties wasted and alienated the prejudice of the Matt's interests, and the Matt having also failed to furnish proper account of its receipts and expenditure in response to a notice issued by the Muzrai Department, the monthly cash allowance payable to the Matt from the Muzrai Department has been placed under attachment, pending further orders of Government in the matter.

6. It is very much to be regretted that the large resources which these Matts command are not always utilized in the directions in which they are expected to be employed, *viz.* the imparting of instruction in the doctrines of Hindu religion and philosophy, encouraging religious study and Sanskrit learning. Steps will be taken early to carry out these objects, at least in those Matts which have come temporarily under Muzrai management.

7. It is hoped by these measures to restore to these Matts a portion of their ancient usefulness to the community, so that they may become true centres of light and learning, and assist the progress of social evolution by the intelligent discussion and authoritative exposition by enlightened Pandits of social laws governing the community.

III—TEMPLES.

3. *Temple repairs.*—The want of light and air, coupled in some cases with the moisture caused by the leaky roofs, had rendered the interiors of most of the temples dark and unwholesome, and permanent abodes of dirty bats. To remedy this, it was found necessary to repair the temples thoroughly, with a view to admit plenty of light and air, and to prevent the damp by making the roofs water-tight and the floors smooth and incapable of lodging water as well as of retaining dirt of any kind. Accordingly the work of repairing the institutions—principally those which are greatly resorted to by people and also those noted for their rare architecture—

tural excellence—has been taken in hand, and during the two years, 1892-93 and 1893-94, repairs to the estimated cost of Rs. 80,510-2-4 have been sanctioned to sixty-eight temples as particularized below:—

			Rs.	a.	p.
23 temples in Mysore District costing	...	...	23,063	6	6
11 temples in Hassan District costing	...	...	4,667	12	4
5 temples in Shimoga District costing	...	...	4,734	0	0
7 temples in Kolar District costing	...	...	7,045	0	0
5 temples in Chitaldroog District costing	...	...	4,550	0	0
7 temples in Tumkur District costing	...	...	10,667	15	6
4 temples in Kolar District costing	...	...	6,516	0	0
6 temples in Bangalore District costing	...	...	16,396	0	0
Total 68 temples in the Province costing			80,510	2	4

9. The cost of these repairs has been met mostly from the temple savings, supplemented by contributions from the votaries concerned. In some special cases, the Government have also been pleased to give small State grants, varying in amounts according to the importance of the institutions.

10. Most of the sanctioned repairs have been completed, while the others are in active progress.

11. *Temple Establishments.*—In my previous report, reference was made to the excessively large number of ill-paid and inferior servants on the temple establishments, and the consequent inability of the temple authorities to enforce good service from them. The means now resolved upon to correct these evils are the following:—

- (i) To reduce the number of servants of each class to the number actually necessary for the work to be done.
- (ii) To employ the savings thus effected in raising the emoluments of the servants retained.
- (iii) To fill up the vacancies by appointing competent men and to suffer no one else to perform the duties of the office-holder.
- (iv) In the case of petty offices with paltry emoluments, to club together two or more of them, and to appoint one man for the place.

12. Revision of establishment on these lines has already been effected in the case of some temples and will in due course be carried out in others as early as practicable.

13. Two Agamikas, one for the Siva and the other for the Vishnu temples, have been appointed to regulate the services in the temples and also to examine and train up the Archaks, as most of them are wanting in the knowledge of their duties.

14. Dancing girls are gradually being eliminated from the temple establishments. In cases where it appeared that the sudden stoppage of their allowances would entail great hardship, orders were issued to continue payments to the present incumbents during their life-time.

15. It may, however, be mentioned here that Agamas do contain authority for the entertainment of *Devadasis* in temple service. But the class of women therein contemplated is of a peculiar type. They should devote themselves entirely to the temple service and lead a life of holiness and piety. But the dancing girls we now find in temples are of a quite different type and character, and their retention therefore in the temple establishment is very undesirable.

IV—DHARMADARSIS.

16. To supervise the working of the Muzrai temples, local committees under the designation of Dharmadarsis have been appointed from among the respectable residents of the places where the institutions concerned are situated. Up to date, such committees have been appointed for 97 temples in the different Districts as detailed below:—

31 temples in Bangalore.
10 temples in Kolar.
1 temple in Tumkur.
33 temples in Mysore.
7 temples in Kolar.
3 temples in Shimoga.
12 temples in Chitaldroog.

Total ... 97

V—MUHAMMADAN INSTITUTIONS.

17. In the course of my inspection, I also found certain Masjids in a most dilapidated condition, and I have caused necessary repairs to be executed to five of these institutions in the Mysore District at a total cost of Rs. 1,982-15-9. As in the case of the Hindu temples, there were also complaints that the endowments of the Masjids were unauthorizedly alienated, and

the services therein not properly conducted. Lately, in the case of a Jumma Masjid in the Kolar District, it was found that the Inam lands granted by Government had been alienated in contravention of the terms of the grant, and after a full enquiry into the matter, the alienations were cancelled under the terms of the Government of India Notification dated the 17th November 1877, and the Inam lands have been restored to the Masjid.

18. A competent Muhammadan—the Khaji of the Masjid-i-ala in Seringapatam who is respected much for his learning and knowledge of the Khoran—has been appointed an Inspector, and he accompanies me during my tours, and assists me in the inspection of the Muhammadan institutions.

VI.—OTHER CHARITIES.

19. Rules have been framed and issued for the management of the Langarkhanas in Mysore and Seringapatam, as also for that of the charity established in Mysore by His Highness Prince Gulam Muhammad, the funded capital of which is Rs. 1,50,500 invested in the Government of India securities. Local committees have also been appointed to administer these charities on the lines laid down in the Rules.

No. 10861 94—R. 1645, DATED, BANGALORE, 1ST JANUARY 1895.

ORDER THEREON.—The report will be communicated to all Deputy Commissioners and Heads of Departments.

2. The report is brief, clear and interesting. But in future, the Muzrai Superintendent is requested to annex a brief statement to his report showing—

- (1) the balance of cash in hand at the beginning of the year,
- (2) the receipts during the year,
- (3) the amount spent, and
- (4) the balance on hand at the end of the year, under each class of institutions under the management of the Muzrai Department, with such details as may be possible and interesting regarding the nature of the expenditure incurred, the number of men fed, or otherwise helped, in the Chattrams, Langarkhanas, &c.

3. Government suppose that a *Dittum* or register of the scale of establishments, and the charities to be performed is maintained for each institution and if so, it should be stated how far the actual expenditure has fallen short of or exceeded the *Dittum* and how the cash balances have been verified.

4. A statement showing the value of the jewels and other property in the several pagodas, &c., at the commencement and end of the year should be appended, and arrangements made for the verification of the stock.

The Heads of Departments.

No. 11771-81—R.1744, DATED, BANGALORE, 19TH JANUARY 1895.

ORDER.—Instances have been brought to the notice of Government in which Pattas of lands belonging to temples have been issued in the personal names of the Pujaris, who, taking advantage of the same, have alienated them for their private benefit. In future, Deputy Commissioners should see that Pattas of temple lands, &c., are issued in the names of the temples themselves, and handed over to the Pujari who is in charge of the lands, or, the entry in the Patta may be “Pujari of..... Temple” without mentioning the name of the Pujari.

No. 12534-44—R. F. 116-92, DATED, BANGALORE, 24TH JANUARY 1895.

ORDER THEREON.—Considering that the planting of topes and trees would be better promoted by giving the planters an absolute right in the topes, the Chief Commissioner, in his order dated 12th March 1880, No. 6621-8—725, directed that all public topes planted subsequent to 1870, by the villagers as a body or by individuals at the instance of Deputy Commissioners without any stipulation for grant of Inam lands, be recognised as the private property of the planters if they or their heirs consented to pay the full assessment of the lands from the date of the planting of the topes, but the Secretary of State for India doubted the expediency of the measure and called the attention of the Government of India to it. The matter was referred to the Chief Commissioner, but no final orders were passed. The subject however having again attracted the attention of Government, the Deputy Commissioners and the Officers noted in the margin were called upon in 1392 (Government Progs. dated 12th August 1892, No. 2312-22—R. F. 116-92) to report how the orders contained in Government Proceedings of 1880, above referred to, have worked, and what alterations therein, if any, were called for. The letters read above are in reply.

Colonel Grant,
Mr. Madhava Rao,
Mr. Ricketts.

2. The reports received show that only six topes in the Bangalore District, one in the Hassan District, and a few in the Tumkur District were brought under the operation of the Proceedings of 1880, and that even in those cases the topes have not improved under private management. Probably the true cause of the planters not coming forward to take up the topes is the hard condition of paying the assessment from the date of plantation, and perhaps the same cause induced the owners to cut down the trees, but as there are now liberal rules for firewood and other plantations for private use, Government do not consider it necessary to convert public topes into private property, and accordingly resolve to cancel the Proceedings of 1880 above referred to, and to direct that in future no public plantations be given on full assessment to be treated as private property, without the special orders of Government. It should however be understood that the rights of planters in topes already granted on full assessment under the Proceedings of 1880, are not to be interfered with.

Vide Appendix Revenue rules.

3. The conservancy of public topes should be carefully attended to. Colonel Grant states that all public topes have been entered in the survey registers as Kharab, and that the rights of the planters, such as for instance taking dead trees and branches, enjoying the produce of the trees, have been recorded in the Faisal Patrikas, all topes in which no such private rights exist being shown as "Government topes." With reference to these survey records and fresh enquiries if necessary, Deputy Commissioners should at once cause a register to be prepared for each village showing (1) the position and area of each tope, (2) the number and description of trees it contains, and (3) the extent of private rights, if any, existing in it, and submit an abstract thereof to this office with a report as to the arrangements made for their proper conservancy.

4. As a rule, all public topes should be open to travellers and to the villagers and their cattle for shade and shelter, and consistently with this condition it will no doubt be difficult to prevent damage to the trees and to conserve their produce, unless a watcher is specially employed, at least for all large topes, for looking after the trees and their produce and for planting new trees in the place of dead trees and in vacant grounds in the tope. Where private rights exist, it should be the duty of those who enjoy such rights to maintain the topes, and this should be enforced. As regards "Government topes," Deputy Commissioners are requested to report whether the topes would not be better maintained if they are made over to District Boards so that they may be properly preserved by them, the cost of their maintenance being met from the income of the topes and other funds at their disposal.

5. There may be a few topes which, owing to their position, the present condition of trees, or other reasons, are practically of no use either to travellers or to the village community. In such cases, the Deputy Commissioners are requested to report whether they could not with advantage be sold in a public auction to be held as private topes, or transferred to the planters or their heirs on valuation subject of course to the payment of full assessment. If this could be done, a list of such topes with the necessary particulars should be submitted.

6. The instructions above given do not apply to scattered trees.

READ:—

The following letter No. 4141—108-85, dated 30th November 1894, from the First Assistant to the Resident in Mysore:—

With reference to the Circular from the Revenue and Agricultural Department No. 60—115 (Statistics), dated 22nd December 1892, a copy of which was forwarded with my letter No. 787—282-91 of the 7th March 1893, it is understood that definite instructions are desirable in regard to the manner in which the number of laborers employed on coffee plantations should be calculated. The Government of India accordingly prescribe the following method of calculation:—

Column 3.—The number of persons permanently employed in the estate throughout the year should be entered. For example, if an estate has 20 persons permanently employed, the entry will be 20.

Column 4.—The number of persons employed for any period less than a year should be multiplied by the number of days in that period; the total of the results thus arrived at should be divided by 365, and the result should be entered in this column. For example, an estate employed 30 persons for 90 days, 40 for 60 days, and 100 for 45 days:—

30	×	90	=	2,700
40	×	60	=	2,400
100	×	45	=	4,500
Total...				9,600

Dividing 9,600 by 365 days in the year, the result is 26, which will be the figure to be entered in this column.

2. As no uniform method seems to be adopted by planters in calculating the cost per acre of the cultivation of coffee, it has been decided that column 11 of the Coffee Return need not be filled up in future.

No. 11752-9—R. F. 37-92, DATED BANGALORE, 26TH JANUARY 1895.

ORDER THEREON.—Deputy Commissioners are requested to substitute the above letter for the Circular of the same number and date, forwarded with Government Proceedings No. 9665-72—R. F. 37-92, dated 12th December 1894.

3. Government are of opinion that toll gates may be established in the Mysore Province at the frontier on the several roads on which British toll gates exist. The Deputy Commissioners of the several Districts are requested to place the matter before their Local Fund Boards and submit their proposals for the consideration and orders of Government. A statement should be submitted showing.

- (1) the station in the Mysore Province, in which toll gate is proposed to be established;
- (2) the rates at which tolls are proposed to be levied and whether they are to be levied on vehicles, &c., entering the Province, or also on those going out;
- (3) information similar to that in column two in regard to the corresponding British toll gates;
- (4) the probable revenue expected and the estimated cost of establishment needed for the collection of tolls;
- (5) from what funds the road on which the tolls are to be levied is maintained.

4. The District Board of Kolar proposes the establishment of tolls on eight roads in his District, whereas British tolls exist only on six roads. Government are not at present disposed to sanction the levy of tolls on any roads, other than those on which British toll gates exist. The Deputy Commissioner is therefore requested to revise his statement and submit information in the form called for in the preceding para.

5. The Deputy Commissioner of Shimoga is informed that no toll gates can be sanctioned on incomplete roads. Orders will be issued in regard to others on his placing the matter before the District Board and submitting their proposals with the information called for in para 3.

No. 11494-504—L. F. 121-94, DATED, BANGALORE, 26TH JANUARY 1895.

ORDER.—Notifications of sanction submitted by Deputy Commissioners for works sanctioned by them are often vague and defective. Under the head "Name of work" the work sanctioned should be specified with sufficient clearness to admit of its identification, but often, in the case of roads and drains, nothing more is stated than the words "Opening a road (or constructing a drain) in Municipality" without specifying the length of the road or drain and the particular locality in the town or village named where the road or drain is proposed to be made. In the column of "Items" under the head "Abstract of Estimate," merely the name of the work is repeated without specifying the different items composing the work such as those given in the abstracts appended to detailed estimates. Further, the necessity for the work is not explained in the column of Remarks, as it should be. Deputy Commissioners of Districts are requested to see that the Notifications of sanction submitted by them furnish all the particulars required.

2. It is observed that compensation payable for lands to be acquired is often mentioned in Notifications of sanction as one of the items of the works to which they relate or as an independent work by itself sanctioned by Deputy Commissioners. Where the land required to be taken up is for completing any particular work and the total cost of the work is below the sum which the Deputy Commissioners are authorized to sanction, the Notifications of sanction may issue as usual, but where the acquisition of the land is for general purposes and not in connection with any particular work, the previous sanction of Government should be obtained, and in all cases the instructions conveyed in Government Proceedings No. 3752-60—R. 416, dated 20th August 1893, in regard to acquiring lands for public purposes should be strictly followed.

3. In some cases Deputy Commissioners sanction works costing Rs. 200 when undertaken from Municipal Funds and submit Notifications of sanction in respect of them. The orders conveyed in Government Proceedings No. 2832-40—L. F. 137-92, dated 22nd August 1892, in regard to the limit of sanction in the case of District Fund works will be held to apply also to Municipal works.

*Proceedings of the Government of His Highness the Maharaja of Mysore
(Petition)—dated 24th January 1895.*

READ :—

Letter from the Deputy Commissioner of Tumkur, No 49, dated 12th July 1894.

No. 11829-37—Pet. F. 35-94, DATED, BANGALORE, 24TH JANUARY 1895.

ORDER THEREON.—The Deputy Commissioner solicits orders in the following case :—

One Kuppaiya was the Shanbhog of Madihalli, Shivanchalli, Kodihalli, and Kempalapura, Gubbi Taluk, and as the revenue of each of these villages was very small, they were amalgamated with the neighbouring villages of Chennahalli, Padagudi, Hosakere, and Bilinandi respectively. Kuppaiya brought a suit for the recovery of the office in the four villages, which belonged to him, and obtained a decree in the Court of the Deputy Commissioner. On receiving an application for the execution of the decree, the Deputy Commissioner requested the Superintendent of Mysore Revenue Survey to separate Kuppaiya's villages from those with which they were amalgamated, and on his refusing to do so, the Deputy Commissioner enquires how his decree is to be executed.

2. Government consider that the Deputy Commissioner was wrong in having passed the decree without previously ascertaining from the Superintendent of Revenue Survey whether the villages could be separated or not. As all the villages concerned are small, Government are not disposed to order the sub-division of the Firkas according to the decree. In all such cases in which villages with different hakdars are combined and made into one Firka, the person having the largest share should have the office and the names of all other sharers should be entered in the registers as subordinate hakdars for the combined village possessing a fractional share in it, the fraction being determined by the ratio which the revenue of the minor villages bears at the time of amalgamation to that of the combined village. An immediate enforcement of this fractional hak will of course be impossible so long as the major hakdars exist, but the minor hakdars will have a preferential claim to the entire hak when the major hakdars fail, or to officiate during the minority or other disability of the major hakdars. The Deputy Commissioner is requested to modify his decree accordingly.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioner, Tumkur District, returning the records received with his letter No. 49, dated 12th July 1894.

The other Deputy Commissioners.
